

Create a database in Cloudant DB

Team Id	PNT2022TMID11549
Maximum Marks	4 Marks

The screenshot displays the Cloudant DB web interface. The top section shows a document editor for a database named 'Bhuvanesh'. The document is a JSON object with the following structure:

```
{
  "_id": "Bhuvanesh",
  "_rev": "1-4bfa6fbae1b8c12a7af4b3ffa4f09782",
  "Mobile Number": "998765432",
  "product": {
    "item1": "mouse",
    "item2": "keyboard",
    "item3": "pendrive"
  }
}
```

The bottom section shows a document list for the same database. The list contains one document with the key 'Bhuvanesh' and the value `{ "rev": "1-4bfa6fbae1b8c12a7af4b3ffa4f09782" }`.

The interface includes a sidebar with navigation options: All Documents, Query, Permissions, Changes, and Design Documents. The top navigation bar shows the database name 'Bhuvanesh' and a 'Document ID' dropdown. The bottom status bar indicates 'Showing 2 of 3 columns' and 'Showing document 1 - 1'.
